

ORACLE BUSINESS INTELLIGENCE CONSULTING SERVICES

“It is essential to have an implementation partner like Apps Associates who understands the OBI-EE technology platform and tradeoffs between pre-built Analytics and custom BI implementation... Apps Associates capabilities proved essential to our BI project. We look forward to working with them through continued roll-outs.”

Insight Enables Performance.
“The best vision is insight.”
Malcolm Forbes

Business Intelligence remains one of the highest strategic IT priorities for many organizations according to Gartner Research. Companies are under increased pressure to optimize financial and employee performance. The enterprise is drowning in data but lacks timely and relevant information to enhance decision making and forecasting that is required to drive better performance.

BI Strategy | Design | Implementation | Support

Oracle BI Consulting Services from Apps Associates will facilitate your move from data to insight. Based on a global delivery model and deep Oracle Business Intelligence experience, our team will define your BI strategy and implement a cost effective and optimized solution that will enable your business users to examine, discover and analyze information in powerful new ways.
