

ORACLE E-BUSINESS SUITE CLOUD HOSTING SERVICE

"We chose Apps Associates for our Oracle EBS migration to the AWS cloud because it is essential for success to have a partner that has expertise in both Oracle EBS and AWS cloud. Apps Associates has both and they completed a potentially complex migration flawlessly."

Apps Associates Oracle E-Business Suite (EBS) Hosting Service revolutionizes the way in which businesses deploy and support Oracle EBS. By delivering Oracle E-Business Suite on cloud Infrastructure as a Service (IaaS), and by changing the way in the application is installed, maintained and delivered, Apps Associates enables enterprises to operate complex solutions at much greater efficiencies.

Leveraging Amazon Web Services Cloud IaaS platform, and technical expertise developed over a decade of managing Oracle technologies, Apps Associates Oracle E-Business Suite Hosting Service delivers better performance, increased security, and greater reliability than traditional hosting services. The Apps Associates Hosting Service also delivers a significantly lower cost of ownership when compared to traditional hosted services or in-house corporate systems.

Disaster Recovery Solutions

Enterprise customers can benefit from Amazon Web Services' widely dispersed data centers by choosing a primary site and a disaster recovery site from 10 regions around the globe. Apps Associates provides solutions to deploy Highly Available Oracle E-Business Suite in the cloud, at a fraction of the cost of traditional DR solutions.

Applications & Database Administration

Apps Associates Administration services are backed by highly qualified staff. We pride ourselves on our ability to partner with our clients to offer flexible solutions for their Oracle E-Business Suite and database hosting needs. From strong SLAs, to robust disaster recovery and backup strategies, Apps Associates manages all the cloud and application infrastructure so that our clients can concentrate on their core business.
