

**For Immediate Release**

## **Siemens Water Technologies Deploys Report Lifecycle Management Solution from Apps Associates**

**WESTFORD, MA, June 20, 2008** Apps Associates announces the deployment of their enterprise report management product called **Report Lifecycle Management Solution (RLMS)** at Siemens Water Technologies Corp of Lowell MA, a Siemens AG (NYSE:SI) company. RLMS is built upon proven Oracle technology and makes it easy to import and store reports automatically from Oracle and other enterprise Applications.

*"The combination of Report Lifecycle Management Solution and Oracle Secure Enterprise Search delivers a comprehensive platform for users to securely access report content generated anywhere in the enterprise from a single user interface that is accessible via the web. RLMS will streamline the flow of information in the enterprise by automating the import of reports from various sources in our organization and making it easy to disseminate the right information to the right recipients,"* according to Mark Ridgley, VP Information Services, Siemens Water Technologies Corp.

Reports are saved in a secure, scalable, centralized repository and managed via a simple web user interface. RLMS seamlessly integrates with Oracle Secure Enterprise Search making it a report management and enterprise search solution in one. RLMS also provides tools for version control, archival, workflow automation, approvals, and auditing that facilitate the achievement of regulatory compliance objectives and make it possible to automate business processes relevant to enterprise report management.
