

Scanline Information

Purpose: Every Client has their own process of printing Invoices and folding and stuffing into envelope. If they are printing 5000 invoices per a given day its very tedious process to fold and stuff into envelopes, to over come this process most of them use the folding machines to do this purpose, these folding machines read the bar markings on invoice pages and automatically folds and put into envelopes.

Handling three different scenarios of invoice printing:

1. Single Page Invoice
2. Two Page Invoice
3. Multi Page Invoice

Above three scenarios will be handled based on the different bar markings printing on back side of each page and we use the duplex printing option to print the bar marking on back side of each page. Here are the some sample output files for different scenarios:

Single Page Invoice:

 AMERICAN TOWER <small>and ATC Tower Services Inc 10 Presidential Way Woburn, MA 01801</small>		CONSOLIDATED INVOICE						BILLING NUMBER: 344402			
		CUSTOMER NUMBER: 38478									
		ISSUE DATE: 03-APR-07		DUE DATE: 01-APR-07		REPORT TYPE:
