

# Apps Associates Services for Oracle IaaS

The cloud offers an opportunity for IT organizations to reduce costs, improve scalability and IT agility. Oracle's Infrastructure as a Service (Oracle IaaS) provides a cloud environment suitable for many different application workloads from Oracle applications such as Oracle E-Business Suite to custom applications.

Apps Associates can help you migrate and manage your applications on Oracle IaaS. We can help with the following Oracle IaaS offerings:

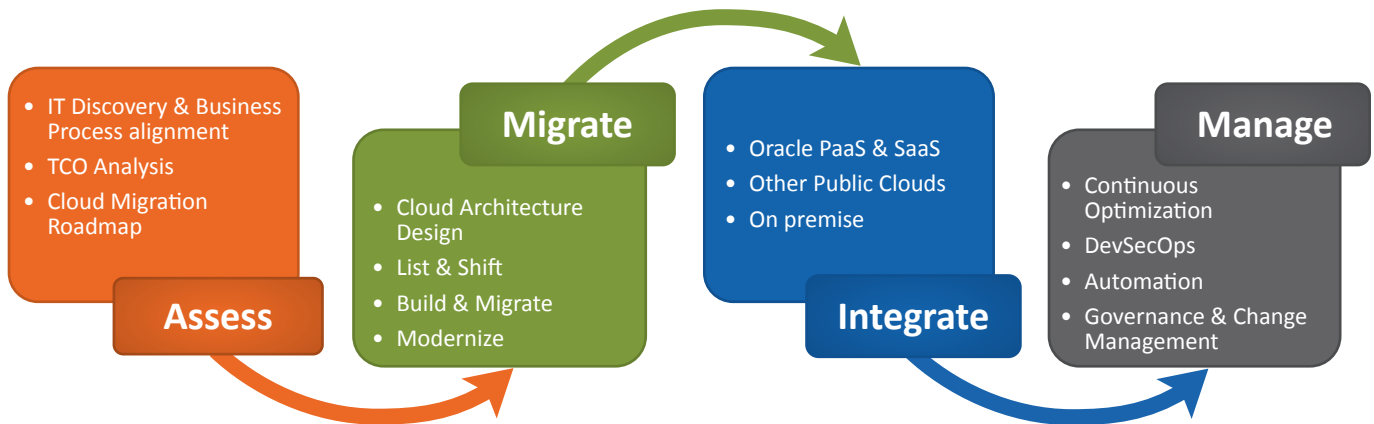

Oracle Bare Metal Cloud Service	Oracle Ravello Cloud Service	Oracle Container Cloud Service
Oracle Compute Cloud Service	Oracle Storage Cloud Service	Oracle Network Cloud Service

Apps Associates has built up expertise and experience with a long history of application migration to the cloud. As a result we can help organizations that need to migrate the following workloads to the cloud:

- Enterprise Applications
- Web-based Applications
- Disaster Recovery
- General Business Applications
- Test and Development
- Complete Data Center Migration

Firstly we evaluate your existing applications for their cloud suitability and then we migrate the appropriate applications to the cloud. Our experts can also integrate your applications with other workloads in the cloud or with those that remained on-premises and finally we provide cloud managed services to continuously optimize your cloud environment.

## Complete Lifecycle Partner for Oracle Cloud
