Mission

To optimize and simplify shipping and logistics for Oracle Applications at an affordable price.

“With its unified interface for shipping, Oracle ship confirmation and reporting, ShipConsole helps us streamline our shipping execution and meet the growing demand for more shipments out of our warehouse.”

James English
Sr. Business Analyst
Siemens Water Technologies

ShipConsole

The Premier Shipping Solution for Oracle Applications

An Oracle-validated, enterprise strength, easy-to-use software for integration between Oracle E-Business Suite and freight carriers like UPS, FedEx and various LTL carriers. Online shipment processing, label printing, shipment tracking, instantaneous proof-of-delivery documentation, and Oracle ship confirmation are all done from a unified interface in ShipConsole enhancing productivity and making it the one source for shipment-related information.

Challenges

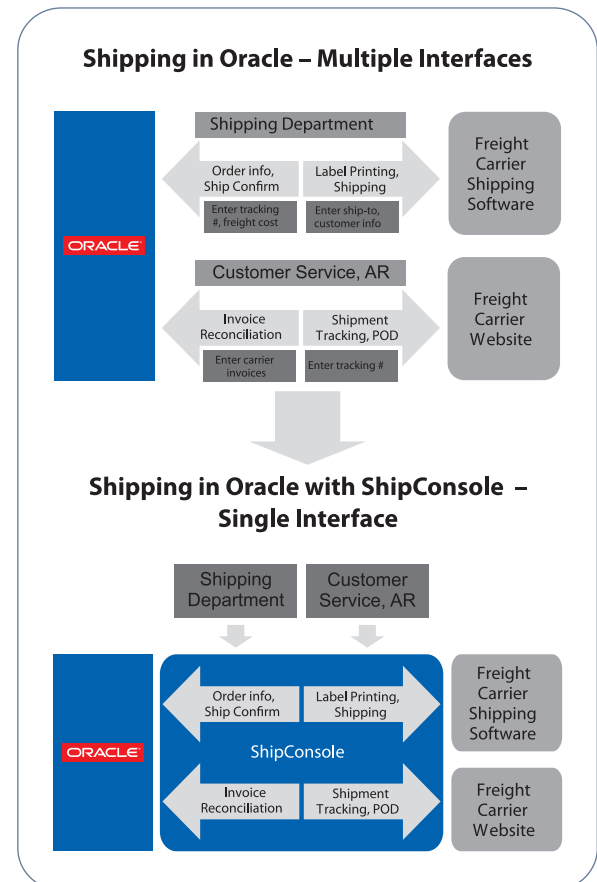

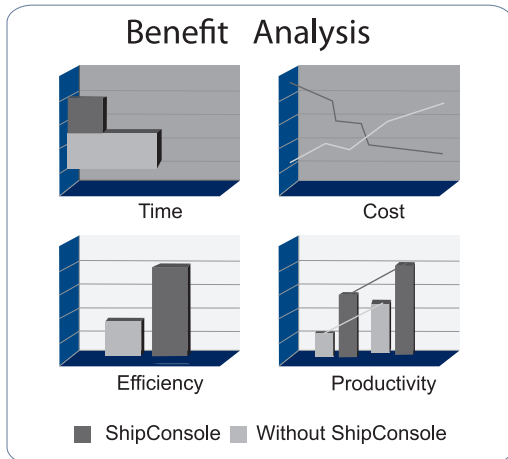

- Simplifying the shipping process from Oracle E-Business Suite: No single interface for freight carrier integration, label printing, shipment tracking and Oracle ship confirmation.
- Saving tracking numbers and freight costs in Oracle E-Business Suite.
- Sending advance shipment notification with tracking numbers to customers.
- Obtaining proof-of-delivery documents from carrier companies.
- Maintaining integrity of shipping data.
- Maintaining accurate profitability information incorporating freight charges.

The ShipConsole Solution

- One stop shipping process from Oracle E-Business Suite.
- Easily create shipments for deliveries in Oracle E-Business Suite and ship them via carriers such as UPS, FedEx, and LTL carriers.
- Obtain shipping labels, tracking numbers and freight costs from freight carrier systems and store history in Oracle E-Business Suite.
- Complete ship confirm process in Oracle E-Business Suite with click of a single button. Ship complete, partial, or backorder items easily.
- Maintain data integrity by validating item serial numbers at time of shipping.
- Print all shipping documentation from a single source.
- Track shipment status easily by Oracle order/delivery number and obtain proof-of-delivery documentation electronically.
- Enhance visibility into freight costs and shipment tracking information.

“ShipConsole has dramatically improved productivity by providing a simplified single user interface which integrates with our carriers and streamlines Oracle Shipping Execution. Our shipping departments rely heavily on this important tool which not only speeds up our process, but provides better reporting and tracking capabilities than existed prior to ShipConsole.”

James Barron
Sr. Systems Analyst, Hologic, Inc.

Benefits of using ShipConsole

- Increase shipping volumes with greater productivity from one-stop shipping process.
- Maintain data integrity with reduced data entry errors.
- Improve customer service with shipment notifications and faster access to shipment status and proof-of-delivery.
- Speed up learning curve for new users with single, intuitive user interface for shipping and tracking.
- Obtain better analytics from availability of shipping data and freight costs in Oracle Applications.

ABOUT APPS ASSOCIATES
