

OPTIMIZE YOUR FINANCE OPERATIONS WITH RATESLOADER

Requirement

Manually fetch from OANDA and load the daily currency exchange rates data. Make this process quick & efficient; remove dependency on manual load and human errors.

Solution

RatesLoader makes the process efficient by automating the steps of fetching, formatting and loading the daily rates data that your business needs into Oracle Cloud ERP and eliminating manual steps. It is quick, automated and does not require any additional hardware or Oracle subscription licenses to run. Program can be setup to run in less than 24 hours once your contract is finalized with OANDA. This is built using ICS, JCS, CCS cloud services available in Oracle's PaaS offering.

Features

- Quick and Easy setup. Just need API Key from OANDA and customer's Instance URL, User ID & password.
- Automates the process of fetching the rates from OANDA and loading them into Daily Rates table in Oracle Cloud ERP.
- Rates fetched from OANDA are stored in a file and archived for reference.
- Allows user to pick currency codes to be fetched from OANDA.
- Scheduled to run at a time specified by you.

Benefits

- No custom programming and maintenance required.
- No upfront investment – no additional hardware or Oracle subscription/licenses needed.
- Monitored by Apps Associates support team. Restart the process in case of any issues with the load.
- Flexibility to add/remove of Currency Codes any time.
- Scheduled to run at a specific time of day; Eliminates manual steps.
- One time setup fee, no Additional Hardware needed

ABOUT APPS ASSOCIATES
