

Jumpstart Your Cloud Transformation: Boomi Integration Accelerators for Oracle Cloud Applications and Salesforce

Leverage Oracle ERP, Integration, Salesforce Consulting and Service Expertise

Specialists in Cloud Migration, Integration, Modernization

Apps Associates understands how to efficiently integrate mission-critical Oracle applications with Salesforce and other third-party source systems. In fact, we've packaged pre-built accelerators that allow you to jumpstart your integration process.

Boomi Integration Accelerators for Oracle Cloud ERP and Salesforce: Whether you need to load a Journal entry file, an Invoice file (ex AR Invoice, AP Invoice), a Purchase Order/Receipt, an Employee record or even an Account/Customer from one or more systems into Oracle Cloud ERP or you want to process data (ex: Account, Opportunity, Product, Order) in real time from Salesforce to Oracle Cloud ERP, the Apps Associates Integration Accelerators built for the Boomi Platform are available to you enabling you to successfully fast track your Oracle Cloud Implementation and Modernization process.

Easy, Fast, Efficient Integration Built on the Boomi Platform

Pre-Built Integration

Accelerators pre-built with multiple options for data integration based on your requirements. Available as both flat-file or REST API integration with standard error handling.

Application Expertise

Deep understanding of Oracle and Salesforce applications and a company legacy started from Oracle puts our customers in the driver's seat.

Reduce \$, Time to Deploy

Integration profiles, especially to and from mission critical business applications, can be complex and error prone causing delay in deployment. Leverage the Boomi Accelerators to drive efficiency and reduce time & cost.

Features:

- **Framework:** 100% reusable and extensible
- **API Led Architecture/Canonical Model:** Available for data transformations and processing
- **Business Logic:** Includes Inbuilt standard business logic/ Provides a solid foundation to build upon
- **Mappings:** Easily Adjustable field mappings based on customer use cases without impacting pre-built system APIs
- **Validation, Error Handling:** Standard error handling packaged in baseline solution, easily adjustable for enhanced exception handling needed for specific customer use case

Benefits:

- **Availability:** Dell Boomi code available in Boomi cloud
- **Compatibility:** Compatible framework providing both API and non-API based solution
- **Scalability:** Can easily scale on existing business logic
- **Reusability:** System components can be reused easily for varying source systems based on your business logic
- **Governance, Best Practice:** Framework built using industry best practices

Leave It To The Experts...

With Apps Associates' deep expertise in Oracle ERP (on-premise, Cloud Applications), Integrations and Salesforce, we understand that integration and process automation are at the intersection of cloud transformation. With 400+ cloud migrations (SaaS, IaaS, PaaS), Apps Associates has practices that cover every aspect of the cloud journey.

Apps Associates + Boomi = Accelerated End-to-End Integration

An integral part of every cloud migration, modernization and transformation process is ensuring that the connections in/out of your ERP and CRM systems are properly and efficiently handled. Knowing the source and target application and data layers are vital to success. Say goodbye to data integration, transformation and management headaches.
